

Dr Jenny Riesz
Principal – Market Policy Development
Australian Energy Market Operator

Dr Jenny Riesz is a Principal at the Australian Energy Market Operator (AEMO), the organisation responsible for operating Australia’s major electricity grids. Prior to working at AEMO, Jenny was a Research Associate at the University of New South Wales, conducting research on 100% renewable power systems. She previously worked at ROAM Consulting, working with a wide range of electricity industry participants, modelling electricity systems and renewable energy.

Her PhD was in physics, at the University of Queensland.
