

**Mr Roland Vitelli**  
**Local Division Manager, Power Grids**  
**ABB**

Roland is responsible for the local management of the Power Grids Division in Australia, which delivers enterprise software solutions, power generation, transformer & high voltage systems, transmission and distribution infrastructure solutions to the power utilities, mining and industrial customers around Australia.

Roland returned to ABB in 2014 after four years in an executive role of a leading Australian transmission utility. Prior to that he was with ABB for 20 years, in various positions both local and overseas.

Roland holds a Bachelor of Electrical Engineering degree and is based in Brisbane.
