

Energy scholarships

Master of Sustainable Energy

We are educating highly skilled change agents to deal with the complex trilemma of energy affordability, reliability and environmental sustainability.

The Master of Sustainable Energy is one of the few programs in the world that offers you an interdisciplinary education with direct industry contact and practical experience. It provides the opportunity for individuals to gain a deeper understanding and appreciation of energy systems, responsible business practices and contemporary energy challenges.

Scholarships available

The University of Queensland is offering scholarships for high-calibre domestic candidates wishing to study the Master of Sustainable Energy commencing in Semester 1, 2021.

These prestigious scholarships will be awarded on merit to candidates who clearly demonstrate potential as future energy leaders.

Two partial tuition fee scholarships (up to \$12,000)

Eligibility

Scholarship candidates must meet the following requirements:

- A completed undergraduate degree in a related field of study from an internationally recognised institution;
- Commitment to integrated and interdisciplinary approaches to energy systems, responsible business practice and contemporary energy challenges.; and
- Ability to use the skills learned from the program to influence society more broadly about the energy transition required.

How to apply

Domestic (Australian citizens, New Zealand citizens and Australian permanent residents) candidates can apply online until 24 January 2021.

The Program will commence in February 2021 at The University of Queensland (Brisbane).
